RE: Bridge Replacement
Rte 144 over the Hannacrois Creek
Reference Marker 144-1102-1001
(NYSDOT PIN 1007.16)
Town of Coeymans, Albany County

Dear Resident/Property Owner:

I am writing to inform you that the Department of Transportation is designing a project to replace the Route 144 bridge over the Hannacrois Creek.

At this time, we anticipate that construction of this project will take place between June and August 2021. The work will include but is not limited to: complete removal of the bridge deck, existing beams and the south and north side abutments. New integral abutments, beams and a deck will be installed. The span length will increase from 80 feet to 115 feet and will remain on the existing alignment. Both approaches will also be slightly raised to better accommodate high water through the structure.

During construction, the bridge will be closed, with traffic directed to a signed detour route using Route 143, Route 9W through Ravena and back to Route 144 south of Ravena and New Baltimore. A detailed map of the detour route is on the reverse side of this letter.

An informational meeting is scheduled to be held at the Coeymans Town Hall, 18 Russell Avenue, Ravena, on December 2, 2019 at 6 PM.

Should you have any questions or concerns, I can be contacted via the following:
